

Lana Del Rey - Every Man Gets His Wish

```
Every man gets his wish
                 tom:
                Ab (forma dos acordes no tom de E )
Capostraste na 4º casa
                                                                   You told me this
                                                                  Where is mine?
You can whistle for it
(Bm A Em)
                                                                  Every man gets his wish
                                                                   Every man gets his wish
Baby, you'll never grow old in my eyes
                                                                  Promised me this
With your golden grill, true love never dies
                                                                  Well, you lied
You wanna watch me while I watch TV
                                                                   I learned how to make love from the movies
Bm A Em
While you're t-t-t-touchin' me
                                                                  He found me waitressing at Ruby Tuesday's
We're forever young in paradise
                                                                  He said: I wanna buy you a classic white milkshake
Bm A Em
As long as you got the Chevrolet, I will ride
                                                                   I said: I'll serve you up a special side of heartbreak
                                                                   Special side of heartbreak
We're gonna party like it's 1949
                                                                  I was working down in the corner cafe
We're in that Chevrolet from July to July
                                                                  You drove by in a Chevrolet
                    Gbm
Gonna see it all before he says goodbye
                                                                  Whistle at me as my hips go sway
Every man deserves to see the sunrise
                                                                  Lana Del Rey, how you get that way?
                                                                  How you get that way?
Every man gets his wish
Every man gets his wish
                                                                  I said: He loves my heart-shaped sunglasses
You told me this
                                                                  He loves the heart shape my ass is
                                                                  Cristal, crystal champagne glasses
Where is mine?
You said I'd never make it out of here alive
                                                                  Every man gets his wish
Bm A Em
                                                                  Every man gets his wish
At the rate I was going, I'd be lucky to die
I was born so bad, not naturally right
                                                                   You told me this
Bm A Em
                                                                   A G
The brightest star on Hollywood and vine
                                                                  Where is mine?
We're gonna party like we're running out of time
                                                                  Every man gets his wish
We're getting drunk and driving fast on cherry wine
                                                                   Every man gets his wish
Never do belong to anyone I find
                                                                   Promised me this
Leaving everything I ever knew behind
                                                                  Well, you lied
                                                                   (Bm A Em)
Every man gets his wish
