What you been up to my baby?  
G Em  
Haven't seen you 'round here lately

You just crack another beer  
G C  
And pretend that you're still here

This is how to disappear  
C G  
This is how to disappear

[Verso 2]

Jim met me down at the training yard  
G Em  
Got cuts on his face 'cause he fought too hard  
C Am  
I know he's in over his head  
G Em  
But I love that man like nobody can

G Bm Em  
He moves mountains and turns them to ground again  
C Am  
And I watched the guys getting high as they fight  
Am C  
For the things that they hold dear  
Am C  
To forget the things they fear

[Refrão]

Am C G Em  
And this is how they disappear  
C G  
This is how they disappear

[Ponte]

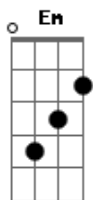

G Em  
Well now, it's been years since I left New York  
G Em  
C And I've got a kid and two cats in the yard  
C Am  
The California sun and the movie stars  
C Am  
And I watched the skies getting light as I write  
Am C  
As I think about those years  
Am C  
And I whisper in your ear

Am C G Em  
I'm always going to be right here  
Am G  
No one's going anywhere  
Am C G  
I'm always going to be right here  
Am G  
No one's going anywhere
