[Verso 1]  
I'm smoking while I'm runnin' on my treadmill

But I'm coming up roses  
Could it be that I fell for another loser?  
I'm crying while I'm gunnin'

Making love while I'm making good money  
Sobbin' in my cup of coffee  
Because I fell for another loser

[Pre-Refrão 1]  
Get that cigarette smoke out of my face  
You've been wasting my time  
While you're taking what's mine, with the things that you're doing  
Talk that talk, well now they all know your name  
And there's no coming back from the place that you came  
Baby, don't do it

[Refrão]  
'Cause you got me in my feeeeeeeelings (got me feeling so much right now)  
Talking in my sleeeeeeep aaaagain (I'm making love songs all night)  
Drown out all our screeeeaaaamm (Got me feeling so crazy right now)  
Who's doper than this bitch?  
Who's free-er than me?  
You wanna make the switch'  
Be my guest, baby  
I'm feeeeeeeelings all my fucking feeeeeeeelings

[Verso 2]  
I'm smoking while I'm running  
This town and you better believe it honey  
I'm laughing as I'm taking no prisoners  
And taking down names  
I'm crying while I'm gunning  
In the smoke they can hear me coming  
If you were me, and I was you  
I'd get out of my way

[Pre-Refrão 2]

[Ponte]  
Got me up in this place right now  
Making no sense at all  
Got me up in this place right now,  
Against the wall  
Got me feeling so blue  
Making no sense at all  
Gotta leave right now

[Refrão]
