[Verso 1]
I'm smoking while I'm runnin' on my treadmill

But I'm coming up roses
Could it be that I fell for another loser?

I'm crying while I'm gunnin'
Making love while I'm making good money
Sobbin' in my cup of coffee
Because I fell for another loser

[Pre-Refrão 1]
Get that cigarette smoke out of my face
You've been wasting my time
Em
While you're taking what's mine, with the things that you're doing
C D Em
Talk that talk, well now they all know your name
C D
And there's no coming back from the place that you came
Em
Baby, don't do it

[Refrão]
'Cause you got me in my feeeeeeeelings (got me feeling so much right now)
Talking in my sleeeeeeep aaaagain (I'm making love songs all night)
G A Em
Drown out all our screeeeeaaaammung (Got me feeling so crazy right now)
C
Who's doper than this bitch?
