

Lana Del Rey - Looking For America

```
Tom: G
            G
Took a trip to San Francisco
All our friends said we would jive
Didn't work, so I left for Fresno
It was quite the scenic drive
Pulled over to watch the children in the park
   D Em D
We used to only worry for them after dark
I'm still looking for my own version of America
Em D C
One without the gun, where the flag can freely fly \begin{tabular}{ll} Em & D & C \end{tabular}
No bombs in the sky, only fireworks when you and I collide
It's just a dream I had in \mbox{\rm mind}
                             G D Em
It's just a dream I had in mind
            Cm
It's just a dream I had in mind
```

```
I flew back to New York City
Missed that Hudson River line
Took a train up to Lake Placid
              Eb
That's another place and time, where
I used to go to drive-ins and listen to the blues
 D Em
So many things that I think twice about before I do, no no
                         D
I'm still looking for my own version of America
                        С
One without the gun, where the flag can freely fly Em C
No bombs in the sky, only fireworks when you and I collide
It's just a dream I had in mind
             \mathsf{Cm}
It's just a dream I had in mind C D G D
It's just a dream I had in mind
C Cm G
It's just a dream I had in mind
```
