

Lana Del Rey - Pink Champagne (Unreleased)

tom:
Ab (forma dos acordes no tom de G)
Capostrate na 1ª casa

I don't really wanna die

I just want the pain to be over
I know that I talked about it all the time, babe
Just wanted you to come over
I got tired of America

It got hard to stay sober
Then I met you and you blew my mind
That was it, game over

We could get lost in the purple rain
Talk about the good old days
I could get drunk on some pink champagne

Lost in the purple haze
Let me love you like a woman

Let me hold you like a baby
Let me shine like a diamond

Let me be your one time beauty queen
You don't know the world like I do

You don't know how good our love can be
Let me love you like a woman

Let me take you to infinity
Ooh baby ooh take you to infinity
Ooh baby ooh

I don't really wanna fly

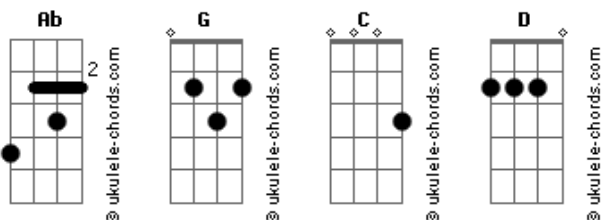

I just want this tour to be over
I know that I dreamed about it all my life

Then the dream got closer
I miss the smell of America

Green palms, green clover
I can still feel it when I close my eyes

It comes right over

Acordes

We could get lost in the purple mist

Think about the good old times
Let it come down like the ocean wave

Hold your body in my mind

Let me love you like a woman
Let me hold you like a baby
Let me shine like a diamond

Let me be your one time beauty queen

You don't know the world like I do

You don't know how good people can be
Let me love you like you a woman

Let me take you to infinity
Ooh baby ooh, take you to infinity
Ooh baby ooh

I n-n-n-need you

Don't, don't fucking leave yet
I need, n-n-n-need you

Don't fu', don't fucking leave yet

Let me love you like a woman

Let me hold you like a baby
Let me shine like a diamond

Let me be your one time beauty queen

You don't know the world like I do

You don't know how good people can be
Let me love you like a woman

Let me hold you like a baby
Ooh baby ooh, take you to infinity
Ooh baby ooh, take you to infinity

Ooh baby ooh, get drunk on some pink champagne

(C G)

Get lost in the purple haze
