

# Lana Del Rey - The Blackest Day

Tom: A  
Intro: A Gbm

Gbm E  
Give me all, got my blue nail polish on.  
D Gbm E  
It's my favorite color and my favorite tone of song,  
Gbm E  
I don't really wanna break up, we got it going on,  
D Gbm E  
it's what you gathered from my talk, but you were wrong.

Pre-chorus:  
D E  
It's not easy for me to talk about a half life in lost dreams,  
D E  
I'm not simple, it's trigonometry. It's hard to express,  
I can't explain.

Refrão:  
Gbm E  
Ever since my baby went away  
D Gbm E  
it's been the blackest day, it's been the blackest day.  
Gbm E  
All I hear is Billie Holiday,  
D Gbm E  
it's all that I play, it's all that I play.  
Because I'm going deeper and deeper, harder and harder,  
D Gbm E  
getting darker and darker, looking for love  
D Gbm E  
in all the wrong places, oh my god.  
D Gbm E  
in all the wrong places, oh my god.

Gbm E  
Carry me home, got my new car and my gun.  
D Gbm E  
Wind in my hair, holding your hand, listen to a song.  
Gbm E  
Carry me home, don't wanna talk about the things to come,  
D Gbm E  
just put your hands up in the air, the radio on.

Pre-chorus:  
D E  
'Cause there's nothing for us to talk about like the future  
and those things,  
D E  
'Cause there's nothing for me to think about now that he's  
gone

I can't feel nothing.

You should've known better than to have to let her,  
E  
get you under her spell of the weather.  
D Gbm  
I got you where I want you, you did it, I never.  
E  
I'm falling for forever, I'm playing the game since.  
D Gbm  
I got you where I want you, I got you, I got you.  
E  
I got you where I want you now.

It's not one of those phases I'm going through,

or just a song.

On my own, on my own again.

I'm on my own again, I'm on my own again,  
A D Gbm E
