

Lauryn Hill - I Gotta Find Peace Of Mind

```
Tom: G
                                                                   Oh I wanna understand, the meaning of your embrace
                                                                   I know now I have to face, the temptations of my past
Obs.: (dedilhando) (batida)
                                                                   Please don't let me disgrace, where my devotion lays
                                                                   Now that I know the truth, now that it's no excuse
                                                                   Keeping me from your love, what was I thinking of?
I gotta find peace of mind
                                                                  Holding me from your love, what was I thinking of?
I know another cord...
I gotta find peace of mind
                                                                   (G - Em )
See, this what that voice in your head says
                                                                   You are my peace of mind, that old me is left behind
When you try to get peace of mind...
                                                                   You are my peace of mind, that old me is left behind
I gotta find peace of mind, I gotta find peace of mind
( Am - Bm )
                                                                   He says it's impossible, but I know it's possible
                                                                   He says it's improbable, but I know it's tangeable
He says it's impossible, but I know it's possible
He says it's impossible, but I know it's possible
                                                                   He says it's not grabbable, but I know it's haveable
                                                                   Cuz anything's possible, oh anything is possible
He says there's no me without him, please help me forget about (G - Em )
                                                                   Please come free my mind, please come meet my mind
                                                                   Can you see my mind, oh
( Am - Bm )
He takes all my energy, trapped in my memory
                                                                   ( Am - Bm )
Constantly holding me, constantly holding me
                                                                   Won't you come free my mind?
I need to tell you all, all the pain he's caused, mmmm I need to tell I'm, I'm undone because, mmmm
                                                                   Oh I know it's possible
                                                                   Anything, anything, anything, anything, yeeey
He says it's impossible, but I know it's possible
He says it's impossible without him, but I know it's possible
                                                                  Anything, anything, anything, yeeey
Anything, anything, anything, anything, anything, yeeey
                                                                   Oh free! Free, free, free your mind
To finally be in love, and know the real meaning of
                                                                   Free, free your mind... free, free your mind
Free, free, free, free your mind
A lasting relationship, not based on ownership
I trust every part of you, cuz all that I... All that you say
                                                                   Oh, it's so possible, oh it's so possible
vou do
                                                                   I'm telling you it's possible, I'm telling you it's possible
You love me despite myself, sometimes I fight myself
                                                                   (G - Em )
                                                                   Free, free... free, free... free, free... get free now
                                                                   Free, free... free, free, free, free... free, free
I just can't believe that you, would have anything to do
With someone so insecure someone so immature
                                                                   ( Am - Bm )
Oh you inspire me, to be the higher me
                                                                   You're my peace of mind, that old me is left behind
You made my desire pure, you made my desire pure
                                                                   You're my peace of mind, you're my peace of mind
                                                                  He's my peace of mind, he's my peace of mind
( Am - Bm )
                                                                   He's my peace of mind, he's my peace of mind
Just tell me what to say, I can't find the words to say
                                                                   What a joy it is to be alive
                                                                   To get another chance, yeah
Please don't be mad with me, I have no identity
All that I've known is gone, all I was building on
                                                                   Everyday's another chance
I don't wanna walk with you, how do I talk to you
                                                                   To get it right this time
                                                                   Everyday's another chance
Touch my mouth with your hands, touch my mouth with your hands ( Am - Bm )
                                                                   Oh what a merciful, merciful, merciful God
                                                                   Oh what a wonderful, wonderful God
