

Lauryn Hill - Mr. Intentional

Tom: F

Verse: Dm - Gm - Cm - Dm

Chorus: Dm - Gm - Cm - Dm (different strumming pattern)

Bridge: (not perfect but pretty close)

Yeah, yeaayh, yeah heh, yeah heh, yeah heh...
 See the road to hell, is paved with good intentions
 Can't you tell, the way they have to mention
 Have they helped you out, you're such a hopeless victim
 Please don't do me any favors, Mr. Intentional
 All their talk, (?) to perfection
 The road they walk, commanding your affection
 They need to be needed, deceived by motivation
 An opportunity, to further situation
 Why they so important, is without explanation
 Please don't patronize me, Mr. Intentional
 Oh, ohhh, ohh ohhh
 We give rise to ego, by being insecure
 The advice that we go, desperately searching for
 The subconscious effort, to support our paramour
 To engage in denial, to admit we're immature
 Validating lies, Mr. Intentional
 Open up yours eyes, Mr. Intentional
 Stuck in a system, that seeks to suck your blood

Held emotionally hostage, by what everybody does
 Counting all the money, that you give them just because
 Exploiting ignorance, in the name of love
 Stop before you drop because that's just the way it was
 Please don't justify me, Mr. Intentional
 Oh undementional, Mr. Intentional
 Ohhh, oh don't you do me any favors
 Ohhh, ohhhh, ohh ohhhh
 Wake up you've been sleeping
 Take up your bed and walk
 Stop blaming other people
 Oh it's nobody else's fault
 Except the truth about you
 You know that life goes on without you
 And your expensive misinventions
 Disguising your intentions
 Don't worship my hurt feelings, Mr. Intentional
 Oh, oh oh oh
 See I know you can't help me, Mr. Intentional
 The only help I need to live, is unprofessional
 The only wealth I have to give, is not material
 And if you need much more than that, I'm not available
 Please don't entertain me, Mr. Intentional
 Oh I dont need your symphy, Mr. Intentional
 Stay away from me, Mr. Intentional
 So undementional, Mr. Promotional, Mr. Emotional, Mr.
 Intentional
 Ohhh ohhhh, ohhhh
