

LAUV - Sims

```
And I'd say nice to meet you, 'stead of saying nice to know
                            tom:
                                                                I try to impress you with some bullshit 'bout Monet
I wish that you and I lived in the Sims
                                                                At least I wouldn't be too drunk to stay
We could build a house and plant some flowers and have kids
                                                                And I wouldn't have let you slip away
But we're both at some trashy Halloween party downtown
And I'll probably never see you again
                                                                Oh, goddamn
                                                                                          Bm
I wish that we lived on a VHS \,
                                                                I wish we would've met on another night, baby
I'd erase the things I said and that I'll probably say again
                                                                Maybe, then
                                                                Gbm
Hit rewind on all the times I got lost in my head
                                                                I wouldn't let you leave me
But I guess I'll never see you again
                                                                Yeah, oh, goddamn
I'll probably never see you again
                                                                I wish we would've met on another night, baby
                                                                In another life, baby
G A
Oh, goddamn
                                                                In another life
I wish we would've met on another night, baby
                                                                I wouldn't have let you
Maybe, then
                                                                I wouldn't have let you
I wouldn't let you leave me
                                                                I wouldn't have let you
    G
Yeah, oh, goddamn
                                                                I wouldn't have let
I wish we would've met on another night, baby
                                                                D
I wouldn't have let you
G A
In another life, baby
                                                                I wouldn't have let you
In another life
                                                                I wouldn't have let you
I wouldn't have let you
                                                                I wouldn't have let
I wouldn't have let you
                                                                I wouldn't have let you
I wouldn't have let you
                                                                I wouldn't have let you
I wouldn't have let
                                                                I wouldn't have let you
I wish that we met walkin' round the Moma
                                                                I wouldn't have let you leave me
```
