

# Lazyboy Empire - Vampire

Tom: Bb  
Intro: Gm Cm

I can feel it in the midnight city  
Oh my tongue it falls across my teeth  
Got a flavor for the young and pretty  
Well tonight's gonna get the best of me

This is how it starts  
Little bit of wine  
Fire in my heart  
Gonna make you mine  
Give me something real  
Something more than love  
Something I can feel

I want to suck your blood  
Vampire  
Vampire

Well tonight I'll take you straight to heaven  
And I'll show you things you've never seen  
Well tonight I want to live forever  
Baby I can take you there with me

This is how it starts  
Little bit of wine  
Fire in my heart  
Gonna make you mine  
Give me something real  
Something more than love  
Something I can feel  
I want to suck your blood
