For you I will go to hell
 In a dark dungeon I burry myself
 Let me be your eternal love
 I want to be able to touch your face
 Your mouth is my greatest desire
 Just gime me a sincere look
 (Gb F Bbm)

My passion was lost forever
 My soul sold for nothing
 I no longer have a way out

I want to love, love, love
 I want to love, love, love

I buried my dreams

Acordes

Seven feet deep from here
 How will I get
 If you're not here with me
 My lost love
 Come back to me soon
 It doesn't make any sense anymore
 I just don't want to exist
 I want to love, love, love
 I want to love, love, love
 I want to love, love, love
 My passion was lost forever
 My soul sold for nothing
 I no longer have a way out
 I want to love, love, love
 I want to love, love, love
