

# League Of Legends - Burning Bright

Tom: A

We were born from light  
 Before there even was a dawn  
 So pure, so bright  
 Falling from the skies  
 Above into our darkened fate  
 The time has come  
 Walking through this world we bear the secret of our lives  
 The light we share  
 Caught in destiny we shine for we are meant to be  
 The star guardians!

Gone in a flash before our time  
 Up in the skies together  
 The vow we have made has kept us strong  
 Don't fade away, it's time to shine!

Burning bright  
 As we reach out for the same horizon  
 Burning brighter  
 Runnin outta time, we're chasing the light

Gone in a flash before our time  
 Up in the skies together

The vow we have made has kept us strong  
 Don't fade away, it's time to shine!  
 Burning bright  
 As we reach out for the same horizon  
 Burning brighter  
 Piercing through the dawn, we burn on and on (and on)

The thought of us stuck in my mind  
 I long for the days when we were young  
 The song in my heart, the light in your eyes  
 But now I drown in tears I've cried  
 Yelling your name into the rain  
 Don't push me away, let's head for the sky!

Gone in a flash before our time  
 Up in the skies together  
 The vow we have made has kept us strong  
 Don't fade away, it's time to shine!  
 Burning bright  
 As we reach out for the same horizon  
 Burning brighter  
 Runnin outta time, we're chasing the light

Burning bright  
 As we reach out for the same horizon  
 Burning brighter  
 Piercing through the dawn, we burn on and on (and on)
