[Primeira Parte]

On the low

Only love myself, no more

Take you to the grave, I'll ghost

I know I can be so cold

In the dark

Where I like to keep my heart

Know I'm all bite, no bark

Like to catch you way off guard

[Pré-Refrão]

I'll stay so deep inside your brain

And take you somewhere far away

[Refrão]

Time to roll the dice, you know I'm the type

Type to risk my life, not afraid to die

Type to make you cry, type to put a price

All up on your head, do just what I said

I'm a straight up villain, straight up villain

Yeah, no feeling, yeah, no feeling

Straight up villain, straight up villain

Yeah, no feeling, yeah, no feeling

[Segunda Parte]

I'm alive, but I'm dead

Hear my voice up in your head

Watch it fill you full of dr?ad

'Til you go pow

Is it really a surprise if I'm playing with your mind

And I treat you lik? a prize, then I throw you to the side?

And am I really that bad if l love to make you mad?

And get happy when you're sad, only care about a bag

[Terceira Parte]

In control

That's how I like it and I'm never letting go, nah

Never had a soul (Soul)

[Quarta Parte]

I'm alive, but I'm dead

Hear my voice up in your head

Watch it fill you full of dread

'Til you go pow

Bang, bang

You can do anything

No fear, no pain

Listen to your brain go

Go stupid, go dumb, go stupid and

Then we go insane, woah

Just do what I say

Follow me, I'll lead the way
