

# Lebanon Hanover - Sadness Is Rebellion

tom:

Intro: Am G Am G

You say nostalgia is negation

It can't go on like that, It will all end

Contentment to be in nature

And kindness is still so hard to find

Sadness is rebellion

And self hate only respect

( Am G Am G )

There is waves, waves of resistance

Somewhere out there but there's not enough of them

Those graves are such a temptation

If we don't press rewind it will all end

## Acordes

( Am G Am G )

You say popular music is contamination

It won't stop if the public is too blind

Sensitivity almost a sensation

In a world of cruel and simple minds

May teardrops be our Revolution

In confusion we will connect

( Am G Am G )

There is waves, waves of resistance

I can feel them but I never hear of them

There is waves, waves of resistance

The critical minds there is not enough of them
