

Led Zeppelin - Four Sticks

Tom: **G** aren't really even heard, any questions, comments, or song requests, e-mail

FOUR STICKS

The intro/verse riff has three guitars, all standard tuning:

guitar 1: Another version: Main Riff (Repeat as nessecery for verse)

guitar 2: Riff 2 (When the owls cry in the night)

guitar 3: Riff 3: (guitar played in sync with sythesizer)
Lyrics:

All of that repeats acouple times with some small ad-lib variations on guitars 1 and 2 with things like slides and vibratos until:

guitar 1: Oh, baby, it's crying time
(Riff 1)
Oh, baby, I've got to fly
Got to try to find a way
Got to try to get away
Cause you know I got to get away from you babe

guitar 2: Oh, baby, the river's red
Oh, baby, in my head
There's a funny feeling going on
I don't think I can hold out long

guitar 3: And when the owls cry in the night
(Riff 2)
Oh, baby, when the pines begin to cry
Baby, baby, how do you feel?
If the rivers run dry, baby, how would you feel?

All of that is played throughout the song besides the chorus, which has three more guitars:

Guitar 4 (Acoustic) Craze, baby, rainbow's end
Oh, baby, it's just a den for those who hide
Who hide their love to the depths of life
And ruin dreams that we all knew so babe

Guitar 5: (Acousic) And when the owls cry in the night
(Riff 2)
Oh, baby, when the pines begin to cry
Baby, baby, how do you feel?
If the rivers run dry, baby, how would you feel?
Ah, baby how do you feel
(Riff 3)

Guitar 6: (Electric 12-string) Oh, brave I endure
(Riff 1)
Ooh, yeah, strong sheilds of love
They can hold the wrath of those who walk
And the boots of those who march
Baby, through the Roads of Time so long ago
(Riff 1)
Fade out

Those 3 guitar parts are a bit different during the lyrics, but the lyrics basically drown them out, the part I posted was the part between the lyrics. If you want the part during the lyrics, e-mail me.

And the last guitar parts, guitars 4 and 5 play during the synthesiser, goes like this:

- John -
.

There are some not to important parts that I left out that

Acordes
