

LeesA - Like a Film

tom:

Intro: A G A D

Hey, I've been with no one

Days are gone

Without you

Day, it's been lonely I know

Going on

Without you

It's like a film of our old days

And when I see your face, fades away

Days like when things are right

The moments of ours replay

Since you've been gone

I have been standing alone

All day

Since you've been gone

I have been wishing for days

All day

G

Will days come back

Hey, I've been here for long

Without you

All alone

Days, it's been many when I'm

Without you

All alone

Just one of those

Stories of days

My dreams behind the clouds

Empty I feel

Sorry I say

No one knows... will days be back

Since you've been gone

I have been standing alone

All day

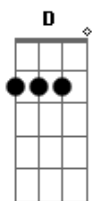

Since you've been gone

I have been wishing for days

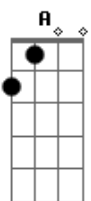

All day

Will days come back
