What will become of the pair

I know a girl who gets off, by sticking needles in her vein

Oh Lord what can she do to get the shit out her hair

Oh Lord, what a shame!

She's got no money so she turns tricks and plays dirty games to get the shit out her hair

Oh Lord spare her pain

Oh Lord it's not fair Blues for sister someone

What she say she do to you you'd have to be insane

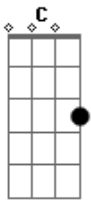

Oh Lord!!!!!!!

The bathroom stall, her bedroom the one that's always engaged

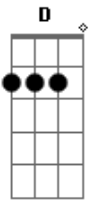

End song jammin on **D** around the basic riffs

She sleeps and eats with the plague
