Lenny Kravitz - Sister

Tom: D

Verse, repeat until G comes

F7M C

E-A-B weird chord (Don't forget to mute the G)

(Repeat x3, but....)

On "And he stole you're only heart" instead of going to E-A-B, go to:

G

C-F-G chord throughout ---------->

Back to E-A-B Then to G again

Now, play that progression through the first two verses,

At the end of the second verse, the E-A-B to G continues through that long instrumental part, until you get to the Bridge:

If they Knock on your Door... You Already gave

:) Trust me-->) |--0

You Don't need no more of what's ailing ya'

(Repeat for next part of bridge)

When you get to "America....," play
E-A-B then F7M (instead of G)

Play the third verse like the first two, then the end just like the bridge.....

NOTE: BE CAREFUL OF THE RHYTHM.... Every other chord starts on the 4th beat of the measure, and lasts for 5 beats, not 4
For example, for the F7M and C in the verses, you play F7M for 1-2-3 and C for 4-1-2-3-4....

The best way to get this down is to play along with the CD (or tape)

Words:

Sister..... did you have to fall in love
With a man.... that never was
Up to no good. he took your soul
And he left your only heart
Flipped your wig, and left a permanent scar

Sister..... did you have to go away
You left you're home.... and the things you had to say
It didn't feel good... to let you slide
I never got to say goodbye
Miss you girl, I think I'm gonna cry....

If they knock on your door, you already gave
You don't need no more of what's ailin' ya

Just lean on your soul with all that it takes
May god bring you back home to America...America
America....

Sister, sister,sister,sister... It's just a test of faith
Your heart is pure, so the devil's in your face
.....I'll see you soon
Cause they haven't got a case
And you'll be free, in a beautiful place

In a beautiful place....

If they knock on your door, you already gave.
