

# Léo Jundi - Uncondional Love

tom:

G

When you were formed  
in your mother's womb  
I've seen, And I already Known you  
All your life was before me  
I already loved you,  
Even before you know me  
I've set my angels to protect you for me  
So many moments I delivered you with my hands  
Your steps were firm and I was with you  
Even that doesn't seen, And that it was too hard

G C D G

All that have happened, was my plan  
To bring you close, my son  
To the arms of the father who never forgot you  
To show you my love that is unconditional

And that the happyness can be true  
Stay near me, I don't wanna lose you  
You are little, I know  
But my love is great for you

You are little, I know  
But my love is great for you (3x)
