

Léo Jundi - Unconditional Love

tom:

G

G

When you were formed

C

in your mother's womb

I've seen, And I already Known you

All your life was before me

I already loved you,

Even before you know me

I've set my angels to protect you for me

So many moments I delivered you with my hands

Your steps were firm and I was with you

Even that doesn't seen, And that it was too hard

All that have happened, was my plan

To bring you close, my son

To the arms of the father who never forgot you

To show you my love that is unconditional

And that the happyness can be true

Stay near me, I don't wanna lose you

You are little, I know

But my love is great for you

I've set my angels to protect you for me

So many moments I delivered you with my hands

Your steps were firm and I was with you

Even that doesn't seen, And that it was too hard

All that have happened, was my plan

To bring you close, my son

To the arms of the father who never forgot you

To show you my love that is unconditional

And that the happyness can be true

Stay near me, I don't wanna lose you

You are little, I know

But my love is great for you (3x)
