

# Leon Coeur - Cigarettes

tom:  
Intro: Am E7 Am E7

[Primeira Parte]

The world has been stolen by those who have been running  
From all their fears and from all their lies  
And I'll keep on going as I try to forget  
All the harm that system did to us

[Pré-Refrão]

And all your pain and all your work  
Will push you back someday  
And all the twist of their words  
Will push them back someday (They've got us)

[Refrão]

Burnin' out like a cigarette  
Runnin' out of time  
I won't live  
I won't live the way you want

[Segunda Parte]

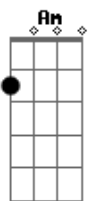

Hey excuse me mister, but music ain't your business  
Don't you know that devil wears a suit and tie  
There's no walls or distance where we miss coexistence  
It's only gonna get worse if we divide

[Pré-Refrão]

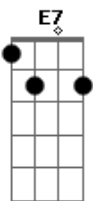

And all your pain and all your work  
Will push you back someday  
And all the twist of their words  
Will push them back someday (They've got us)

[Refrão]

Burnin' out like a cigarette

Runnin' out of time

I won't live

I won't live the way you want

[Refrão]

Stay awake to the bitter end

I'm not buying all your lies

I can't be

I can't be the only one

[Ponte]

You don't care 'bout the people, you don't care 'bout the trees (what?)

Life is not a race, at the end you'll see

No matter where I'm coming from, it matters see who I want be

But how do I become someone you pulling out my wings

Keep climbing high enough so you're able to see

That money comes and goes like the air that we breathe

But you don't really give shit there's people layin' on the streets

And tell me how you get to sleep, I don't want to be

[Refrão]

Burnin' out like a cigarette

Runnin' out of time

I won't live

I won't live the way you want

[Final]

Stay awake to the bitter end

I'm not buying all your lies

I can't be

I can't be the only one
