

Léon - Tired Of You

Tom: C

Do you sometimes let your hand slip away?
 Something just feels different about you babe
 Don't wanna hear about your crazy drunk night out
 I don't believe that you just passed out on the couch
 I can see it, something in the way you move
 You're acting like there's something left to prove
 And all these lies they keep on slippin' out
 I said I don't believe that you just passed out on the couch

Dm F
 On and on and on it goes
 Am G
 On and on and on it goes?

Cause I've been nothing but good to you
 Your howlin' into the night won't do
 I'm tired of talking, talking, talking, talking
 I've been nothing but good to you

(F G Am)

Every moment my heart went black and cold

F G C
 Nothing stings as much like never knowing
 What you've been up to, whose bed your crashing now
 I wanna get rid of the feeling, turn it all around

F G Am
 Cause I've been nothing but good to you
 Your howlin' into the night won't do
 I'm tired of talking, talking, talking, talking
 I've been nothing but good to you

(F G Am)

F G Am
 Get out the door and disappear
 F G Am
 When you get home i won't be here
 F G Am
 Don't act surprised as if you cared
 F G
 Don't even bother cause

F G Am
 Cause I've been nothing but good to you
 Your howlin' into the night won't do
 I'm tired of talking, talking, talking, talking
 I've been nothing but good to you

(F G Am)
