

Léon - Tired Of You

Tom: C

Do you sometimes let your hand slip away?
 Something just feels different about you babe
 Don't wanna hear about your crazy drunk night out
 I don't believe that you just passed out on the couch
 I can see it, something in the way you move
 You're acting like there's something left to prove
 And all these lies they keep on slippin' out
 I said I don't believe that you just passed out on the couch
