

Letícia Gusmão - Old Times

```
Tom: Db
 (forma dos acordes no tom de B )
Capostraste na 2^{\underline{a}} casa
I'm here to tell you something that you might not like
It's not about money, it's about living life
A human being is fucking complex, we cry then we laugh
What comes next?
A world filled with lies and wickedness
I miss the times when I wasn't born yet
I wish I didn't need to wish
That I had a world with no prejudice
Old times, old times
Oh I wish to travel back in time
And take you to a drive in
Or ride a red Mustang
The wind upon our shoulders
```

While a Johnny Cash song lights our flames It?s weird, I have this feeling With you I feel safe Ė This caos place keeps pushing us far far away And we?ll just ignore it Chasing melodies to save the day To save the day Old times, old times Oh I wish to travel back in time And take you to a drive in Or ride a red Mustang The wind upon our shoulders While a Johnny Cash song lights our flames I wish I didn't need to wish That I had a world with no prejudice
