We've got to learn to fly

Because the imagination

Is more powerful than knowledge

I think differently from you

I could be wrong, but so could you

The truth doesn't last forever

But a lie will never be true

Intro: dução

Think of the rain falling on the roof

Dripping to the floor at its own pace

Everything has its beginning

Everything has its end

Make your own way

your way your way

Intro: dução

We've got to learn to fall

Because experience

Is more powerful than knowledge

I act differently from you

I could be wrong, but so could you

Light does not stay with the darkness

But night falls apart with the dawn

Intro: dução
