

Lewis Watson - Castle Street

Tom: C

C G Am
We said some things we didn't mean

C G Am
With us there is no in-between

C G Am G F
From where we're standing I think that we both know

G F
Maybe we're better off alone

C G Am
Under the bridge on castle street

C G Am
We wrote our names in the concrete

C G Am G F
But it's so different now when we both know

G F
Maybe we're better off alone

G Am F Am G
No light, no light, day light gone

C G
We got fire on our tongues

Am F
We got no air left in our lungs

C G
And if we're done, then I'll come

C F
I feel love, I feel love

C G
When did our hearts will turn to stone?

Am F
And all that's left is skin and bone

C G
And if we're done, then I'll come

Am G C
I feel love, I feel love, I feel love

C G Am
Trying to climb these narrow stairs

C G Am
We stop ourselves from splitting hairs

C G Am G F
Maybe it's time that we gave up the ghost

G F
Maybe we're better off alone

G Am F Am G
No light, no light, day light gone

G Am F Am G
No light, no light, to take me home

C G
We got fire on our tongues

Am F
We got no air left in our lungs

C G
And if we're done, then I'll come

C F
I feel love, I feel love

C G
When did our hearts will turn to stone?

Am F
And all that's left is skin and bone

C G
And if we're done, then I'll come

Am G C
I feel love, I feel love, I feel love

C G
We got fire on our tongues

Am F
We got no air left in our lungs

C G
And if we're done, then I'll come

C F
I feel love, I feel love

C G Am
We said some things we didn't mean

C G Am
With us there is no in-between
