

Liam Gallagher - Meadow

Tom: G
Intro: G
[Primeira Parte]

Think I'm coming down with something
I've begun to feel a chill
Woman I said that I would get to know you
And I will
[Segunda Parte]

The rain is blowing at your window
And you've come so many miles
But hold still don't try to fight the shadows
In your mind
[Refrão]

It's a long, long, long lonely life
Sometimes
You gotta hold your head up high
If you want to break the chains from your past life
My dear don't you worry no more
[Terceira Parte]

Let me find an empty meadow
Where the snow falls on the grass
Nothing real can ever fade from memory
But nothing lasts
[Refrão]

It's a long, long, long lonely life
Sometimes
You gotta hold your head up high
If you want to break the chains from your past life
My dear don't you worry no more

[Solo] Em A D G Bb Eb D
[Refrão]

It's a long, long, long lonely life
