

Lianne Kaye - Everything To Me

Tom: E

(E A Gbm E)

I've been thinking lately
 About you baby
 What you're doing to me
 And I've been going crazy
 When you're not with me
 And it made me see
 As I start to realize
 You can't just run away and hide
 I got to keep on moving forward
 Got to keep fighting for what you believe
 And it made me see

When I'm on my own
 Sit here alone
 All I want is you
 Yeah you make me believe
 You're everything I need
 Can't you see you are everything to me

(A B E A)

The people who surround me

The ones who ground me
 They're the ones I need
 Friendships let them make it
 Chances I'm taken
 They won't ever leave
 There I start to realize
 You just can't run away and hide
 I got to keep on moving forward
 Got to keep fighting for what you believe
 And it made me see

When I'm on my own
 Sit here alone
 All I want is you
 Yeah you make me believe
 You're everything I need
 Can't you see you are everything to me

(A B E A)

I got to tell you this now
 As I'm moving things get lost somehow
 And I need you to know now
 I need you to see
 you're everything to me
