

## **Lifehouse - Crash And Burn**

```
Tom: Eb
Intro: Ab Eb
All these lights are catching up to me
I just can't put insomnia to sleep
I close my eyes but all that I can see
Is someone who I'm never gonna be
I hope that you can bring me back
I gotta make it right
And if I fall and crash and burn
          Eb
At least we both know that I tried
        Cm
And as I crawl those lessons learned
          Eb
Yeah they remind me I survived
Yeah, yeah, yeah
Silence just keeps screaming back at me
The ones I love are lost in memories
And I wish that I could take back what was done
You can only change the person you've become
I have to try and find a way
To leave it all behind
```
