

Lifehouse - I'll Keep The Change

Tom: Eb

(intro) Ab Fm Ab Cm

Cover in must
 Outside your cage
 People you trusth
 Lock you away
 The blood in the dust
 Spelled out your name
 You know that it is
 Your price to pay
 Is your task to break this chains

(refrão)

So where did it all go wrong
 Every thing happen so fast
 How could we both believe
 That this could ever last
 And if your not moving on
 You can have the past
 I'll keep the change

(repete notas)

Wonder where you lay

Out of this cave

The shadows of night keep you awake
 Had by now learn your mistakes
 There's still time to catch that chain

So where did it all go wrong
 Every thing happen so fast
 How could we both believe
 That this could ever last
 And if your not moving on
 You can have the past
 I'll keep the change

Fall out the pieces of my heart
 Back to the place where you are
 To reminde myself of --- I had come
 As I emputy all this tears that I save up in a jar
 Until this memories get dried by the sun

(Ab Fm) (2x)

Remember there's still time to catch that chain

(notas refrão)

So where did it all go wrong
 Every thing happen so fast
 How could we both believe
 That this could ever last
 And if your not moving on
 You can have the past
 I'll keep the change
 You can have the past
 I'll keep the change
 You can have the past
 I'll keep the change.
