

Lifehouse - The Beginning

Tom: C
Intro: Eb - C - F - Ab

Eb
tainted
has our love gone cold
in a place that's bitter and broken
tasted of a world I know
surely there must be something better
something forever

Chorus:

C
hello
from the world below
I'm watching the sun burning
as the road is slowly turning
well I know
that in letting go
I'm learning how to live
through a life I have to give

II:

(do the 1st verse chords)
walking

past the city lights
silence can be so disturbing
you'll find me standing in the night
the stars never seem so unending
so unending

but we painted
whitewashed everything
when all that remains are

shadows of the stains
tell me

where did we go wrong
can we just move on

(do the Chorus chords)
hello
from the world below
while I'm watching the sun burning
as the road is slowly turning
when I know
that in letting go
I'm learning how to live
through a life I have to give

(do the Chorus chords)
hello
to the world below
while I'm watching the world spinning
this night seems so unending
well I'll follow
to a place I know
that's only the beginning
start over after ending

Acordes
