

# Lil PEEP - Haunt U

Tom: G

My time is here and I'm making it clear

Oh I love you my dear

But I'm going, I'm gone

I might come back when the Benz all black

Ten racks on my lap

If I don't relapse and I stay strong

I could do anything I want to

Bump Lil Peep, when I die I'mma haunt you

I could live forever if I want to

I could stop time but I never wanna do that again

Em

Nothing worse than losing a friend

And the feeling you get when everybody that you love ain't around

I really gotta get away from this town

I'm just waiting for a wave and I'll drown  
Satan letting me down

I just wanna help you see, you should run away from me

Baby I'm a drug and I don't wanna hurt you

No I'm not gonna hurt you girl, not at all

I ain't gonna set you free

All you gonna get from me

Little bit a love and a little virtue

If I hurt you, I'll end it all
