

# Lil PEEP - Haunt U

Tom: G

My time is here and I'm making it clear  
 Oh I love you my dear  
 But I'm going, I'm gone  
 I might come back when the Benz all black  
 Ten racks on my lap  
 If I don't relapse and I stay strong  
 I could do anything I want to  
 Bump Lil Peep, when I die I'mma haunt you  
 I could live forever if I want to  
 I could stop time but I never wanna do that again  
 Nothing worse than losing a friend

And the feeling you get when everybody that you love ain't around  
 I really gotta get away from this town  
 I'm just waiting for a wave and I'll drown  
 Satan letting me down  
 I just wanna help you see, you should run away from me  
 Baby I'm a drug and I don't wanna hurt you  
 No I'm not gonna hurt you girl, not at all  
 I ain't gonna set you free  
 All you gonna get from me  
 Little bit a love and a little virtue  
 If I hurt you, I'll end it all
