Acordes

I say the sun don't shine forever
 And everything that glitter ain't gold
 I say love don't love forever
 Oh, but everything that do gets old

(piano)

Sometimes we try to find a road to the riches, need roadside assistance
 Blisters on my knees from beggin' for forgiveness
 Ain't no dollars on my trees, but mileage on my feet
 Cause I've been climbin' to the peak and runnin' from the bullshit
 I'm tired of playin' the same song, who told the DJ bring it back
 Dead presidents bullet in Abraham Lincoln hat
 Starin' at big posts, I swear that he be wankin' back
 Cut school, sell crack, sorry I'm just thinkin' back

Call me crazy I've been called worse
 It's like I have it all but what's it all worth
 I'm probably better in my afterlife
 I should cherish life but this ain't paradise

(refrão)
