Limp Bizkit - Breakstuff

Tom: B

   This is my interpretation of the song, some may be right some may not. If any
   changes are to be made or suggestions please email. Im currently working on the
   rest of the bridge part so keep watching for updated versions. Anway after the
   bridge it just goes to the chorus. Enjoy because this song is pretty easy to
   play, the bridge is a bit more difficult though. Im not sure how correct the
   crazy ass part for the bridge is, so if you can help that would be great!
