

# Linda Ronstadt - Winter Light

tom:  
 Hearts call  
 Hearts fall  
 Swallowed in the rain

Who knows  
 Life grows  
 Hollow and so vain

Wandering in the winter light  
 The wicked and the sane  
 Bear witness to salvation  
 And life starts over again

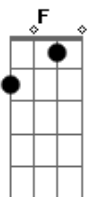

Now the clear sky is all around you  
 Ah a ah  
 Love's shadow will surround you

All through the night  
 Star glowing in the twilight  
 Tell me true  
 Hope whispers and I will follow  
 Till you love me too

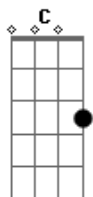

( Dm Am Bb F )  
 ( C Bb F C F )

Now the clear sky is all around you  
 Ah a ah  
 Love's shadow will surround you  
 All through the night  
 Star glowing in the twilight  
 Tell me true  
 Hope whispers and I will follow  
 Till you love me too
