

# Little Mix - Nothing Else Matters

Tom: D  
Intro: G Bm A D A G

Verse:  
 Sometimes you take it too far, going at the deep end  
 No matter what the deal, babe, you know that I'll be there  
 If we lose our way, let the world start to creep in  
 Can't let nobody's word be the why we ain't speaking  
 Only the birds and the bees know where we go  
 A little bit high, little bit low  
 Cause we come, we come so far, oh baby  
 Maybe too much is not enough  
 All the things that we do for love  
 Cause we come, we come so far, oh baby  
 When we coming around

Chorus:  
 Cause nothing else matters like us  
 And nothing else matters like love  
 I don't wanna fight, not tonight,  
 'cause we're having fun now  
 And nothing else matters like us  
 And nothing else matters like love  
 You've just gotta believe it believes  
 that it's coming back around  
 And I don't really care about nothing else  
 Nothing else matters  
 Yeah, no, nothing else

Verse:  
 I told you don't let me down  
 I know you never did  
 And I don't want ya, I don't want ya to start now  
 I got the lock, give you the key  
 Look at us now  
 It's you and me  
 Cause we come, we come so far, oh baby
