

Little Mix - Nothing Else Matters

Tom: D
Intro: G Bm A D A G

Verse:
 Sometimes you take it too far, going at the deep end
 No matter what the deal, babe, you know that I'll be there
 If we lose our way, let the world start to creep in
 Can't let nobody's word be the why we ain't speaking
 Only the birds and the bees know where we go
 A little bit high, little bit low
 Cause we come, we come so far, oh baby
 Maybe too much is not enough
 All the things that we do for love
 Cause we come, we come so far, oh baby
 When we coming around

Chorus:
 Cause nothing else matters like us
 And nothing else matters like love
 I don't wanna fight, not tonight,
 'cause we're having fun now
 And nothing else matters like us
 And nothing else matters like love
 You've just gotta believe it believes
 that it's coming back around
 And I don't really care about nothing else
 Nothing else matters
 Yeah, no, nothing else

Verse:
 I told you don't let me down
 I know you never did
 And I don't want ya, I don't want ya to start now
 I got the lock, give you the key
 Look at us now
 It's you and me
 Cause we come, we come so far, oh baby

G
 When we coming around
 Chorus:
 Cause nothing else matters like us
 And nothing else matters like love
 I don't wanna fight, not tonight,
 'cause we're having fun now
 And nothing else matters like us
 And nothing else matters like love
 You've just gotta believe it believes
 that it's coming back around
 And I don't really care about nothing else
 Nothing else matters
 Yeah, no, nothing else

Bridge:
 No, I don't want, don't want nobody else
 Now that I got you, I got you all to myself
 Falling in, other boys will never be you now
 I give it all, all to you, so baby, don't let me down
 You love so deep, your body on me
 I'm all the way up when I get you on my feet
 We got it all, babe, right where we want it to be

Chorus:
 I said nothing else matters like us
 And nothing else matters like love
 I don't wanna fight, not tonight,
 'cause we're having fun now
 And nothing else matters like us
 And nothing else matters like love
 You've just gotta believe it believes
 that it's coming back around
 And I don't really care about nothing else
 Nothing else matters
 Yeah, no, nothing else
