

Little Voice Cast - More Love

tom:

[Primeira Parte]

Open up my eyes
To daylight
In my new city
Where maybe I will wander too far away from where I started

Open up my heart
And break her
No gentle waters
No anchor
I'm barely breathing enough to keep breathing
But I believe in love

[Refrão]

There is enough so ask for more
To fill you up
Nobody's keeping score
Do you know what you fight for, what you fight for?
I want more love

[Segunda Parte]

In the dead of the dark
The hard times or broken branches
And life lines
Remember it's all a game
A grand design that you can't tame
Open up your eyes and cry then
Mourn your child, your innocence
And turn around to face this
Lay ground and come with

[Refrão]

There is enough so ask for more

To fill you up
Nobody's keeping score
Do you know what you fight for, what you fight for?
I want more love

There is enough so ask for more
To fill you up
Nobody's keeping score
Do you know what you fight for, what you fight for?
[Ponte]

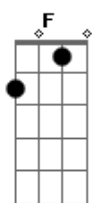

I want more of me, more of you
More wandering in the night skies
From the sunrise side view
More deep breaths, more exhales
More wandering off the road
Towards my story to tell
My story to tell
My story to tell

There is enough
So ask for more
Nobody's keeping score
(Do you know) What do you fight for?
I want more love

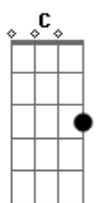

[Refrão Final]

There is enough so ask for more
To fill you up
Nobody's keeping score
Do you know what you fight for, what you fight for?
I want more love
I want more love (do you know what you fight for, what you fight for?)
More love
More love
