

Live Company - Dream Of Every Dreams

Tom: C

Intro: G G

Tema: C Am7 F G (2x)

Wherever we go there will be sunshine everytime
 Everybody knows a living flame is about to rise on earth
 There will be you and me walking under the moon in the streets
 Happy and free you and me riding hand in hand so peacefully
 Set me free from being alone
 Let me taste the taste of love
 Carry me on to a place where anything goes

No matter how long i'm coming just like a rolling stone
 I'm feeling so strong the whole wide world will know every

song of mine
 Just because of you every single part of you
 Every dream is coming true every day is just like something
 new

Set me free from being alone
 Let me taste the taste of love
 Carry me on to a place where anything goes

You are everything everything to me
 Dream of every dream you know what it means
 High above the clouds screaming out so loud
 Feeling very proud can you figure out?
