Tom: Bb

(com acordes na forma de A )

Capostrate na 1ª casa

Intro: D7 E Bm A

The word you wrote to me  
Brought me back to life  
A living history  
Your blood is scarlet in light  
Now my world can never be the same

Refrão:  
Heaven here now  
Love that came down  
In you I am found  
Heaven here now  
Now I look to you  
Walk the narrow road  
I give my life away

To be a living stone

Now that all the earth would know your name

Refrão:

Heaven open wide let our worlds collide  
Heavenly fire here with me now(2x)

Bridge: A E A A A E  
Like lightning in the sky your kingdom on the rise  
The thunder of our praise echo in the light  
See the sun a blaze breaking through the night  
Look into his face behold the rising Christ  
The enemy will shake as we lift our voice loud  
Holy is our God heaven here and now  
See the lost return all the earth will bow  
Holy is our God heaven here and now  
Solo instrumental: D7 E Bm A
