D                        A
Know what I?m expected to say
Bm
I guess you like it best that way
D                        A
Yet again I think I?m trying to find
Bm
Something better

D                            A
You were laying on a hospital bed
Bm
I knew what coulda been instead
D                        A
Suddenly, another one just like me
Bm
What a nightmare

D                    A
Shouting out something obscene
Bm
30 strangers had been staring at me
D                            A
Cause I couldn?t even hide it at all
Bm
How pathetic

D                                A
It?s like picking traits right out of a bag
Bm
Half of them I wish I?d give back
D                            A
If you need me I?ll be trying to find
Bm
Something better

( D )

              E
Somehow I would
                    A7M
Somehow I wouldn?t change
If sometimes I could just
Bm
Play the sideline

Pay me no mind

              E

Play the sideline

Pay me no mind

D                        A
Trying not to say it?s the end
Bm
I wish my parents could be friends
D                                A
But you can?t rewind to get what you want
Bm
Say the word, we?ll all go back in time

D                        A
But then I get out of bed
Bm
Regretting all the shit that I said
D                            A
Fucking crying out the name of a girl
Bm
That I?m dating

( D )
