

# Lorde - 400 Lux

Tom: **D**

Intro: **D**

**D**  
We're never done with killing time  
Can I kill it with you? **A**  
'Til our veins run red and blue **G**  
**D**  
We come around here all the time  
Got a lot to not do, let me kill it with you **G**  
  
**D**  
You pick me up and take me home again  
Head out the window again  
We're hollow like the bottles that we drain **G**  
**D**  
You drape your wrists over the steering wheel  
Pulses can drive from here **A**  
We might be hollow, but we're brave **G**  
  
**D**  
And I like you  
I love these roads where the houses don't change (and I like you)  
Where we can talk like there's something to say (and I like you)  
I'm glad that we stopped kissing the tar on the highway **A**  
We move in empty streets **G**  
I'd like it if you stayed **D**  
Now we're wearing long sleeves  
And the heating comes on **A**  
(You buy me orange juice)  
We're getting good at this **D**  
Dreams of clean teeth  
I can tell that you're tired **A**  
But you keep the car on  
While you're waiting out front **G**
