

# Lorde - 400 Lux

tom:  
 Capostraste na 2ª casa

We're never done with killing time  
 Can I kill it with you?  
 'Til our veins run red and blue  
 We come around here all the time  
 Got a lot to not do, let me kill it with you

You pick me up and take me home again  
 Head out the window again  
 We're hollow like the bottles that we drain  
 You drape your wrists over the steering wheel  
 Pulses can drive from here  
 We might be hollow, but we're brave

And I like you  
 I love these roads where the houses  
 Don't change (and I like you)  
 Where we can talk like there's  
 Something to say (and I like you)  
 I'm glad that we stopped kissing  
 The tar on the highway  
 We move in empty streets  
 I'd like it if you stayed

Now we're wearing long sleeves  
 And the heating comes on  
 (You buy me orange juice)  
 We're getting good at this  
 Dreams of clean teeth  
 I can tell that you're tired  
 But you keep the car on

While you're waiting out front  
 You pick me up and take me home again  
 Head out the window again  
 We're hollow like the bottles that we drain  
 You drape your wrists over the steering wheel  
 Pulses can drive from here  
 We might be hollow, but we're brave  
 And I like you  
 I love these roads where the houses don't change (and I like you)  
 Where we can talk like there's something to say (and I like you)  
 I'm glad that we stopped kissing the tar on the highway  
 We move in empty streets  
 I'd like it if you stayed (single strum continuing to next line)  
 We're never done with killing time
