# Lorde - 400 Lux

```
                           tom:
                    D (forma dos acordes no tom de C )
Capostraste na 2ª casa

         C
We're never done with killing time
              Em
Can I kill it with you?
                    F
'Til our veins run red and blue
C
We come around here all the time
           Em                        F
Got a lot to not do, let me kill it with you

         C
You pick me up and take me home again

Head out the window again
    Em                               F
We're hollow like the bottles that we drain
           C
You drape your wrists over the steering wheel
                        Em
Pulses can drive from here
                     F
We might be hollow, but we're brave

         C
And I like you
I love these roads where the houses
                    Em
Don't change (and I like you)

Where we can talk like there's
                    Am
Something to say (and I like you)
I'm glad that we stopped kissing
                Em
The tar on the highway
            F
We move in empty streets
                    C
I'd like it if you stayed

C
Now we're wearing long sleeves
                Em
And the heating comes on

(You buy me orange juice)
                        C
We're getting good at this

Dreams of clean teeth
                Em
I can tell that you're tired

But you keep the car on
```

```
                    F
While you're waiting out front
                C
You pick me up and take me home again

Head out the window again
        Em                           F
We're hollow like the bottles that we drain
               C
You drape your wrists over the steering wheel
                            Em
Pulses can drive from here
                         F
We might be hollow, but we're brave

             C
And I like you
Em
I love these roads where the houses don't change (and I like
you)
                                                            Am
Where we can talk like there's something to say (and I like
you)
                                                Em
I'm glad that we stopped kissing the tar on the highway
                    F
We move in empty streets
                    C  (single strum continuing to next line)
I'd like it if you stayed

We're never done with killing time
                Em
Can I kill it with you?
                        F
'Til our veins run red and blue
            C
We come around here all the time
                Em                        C
Got a lot to not do, let me kill it with you

             C
And I like you
I love these roads where the
                                Em
Houses don't change and I like you
Where we can talk like there's something
                        Am
To say and I like you
                                                Em
I'm glad that we stopped kissing the tar on the highway
                    F
We move in empty streets
                        C
I'd like it if you stayed

                    Em
And I like you
                    Am
And I like you
                    Em
And I like you
```
