

# Lorde - A World Alone

Tom: E  
Intro: Dbm7 Am Dbm7 (2x)

Dbm7

That slow burn wait while it gets dark  
Bruising the sun  
I feel grown up with you in your car  
I know it's dumb

Ooooooooooooooooooh ooooooooooh

We've both got a million bad habits to kick  
- not sleeping is one  
We're biting our nails; you're biting my lip  
I'm biting my tongue

Ooooooooooooooooooh ooooooooooh  
(People are talking, people are talking)

Raise a glass 'cause I'm not done saying it  
They all wanna get rough, get away with it -  
Let 'em talk 'cause we're dancing in this world alone  
World alone  
We're alone

All my fake friends and all of their noise  
complain about work -  
they're studying business, I study the floor  
and you haven't stopped smoking all night  
Maybe the Internet raised us  
or maybe people are jerks (People are talking, people are talking)  
But not you (People are talking, people are talking)

Raise a glass 'cause I'm not done saying it

They all wanna get rough, get away with it -  
Let 'em talk 'cause we're dancing in this world alone  
World alone  
We're alone

All the double-edged people and schemes  
They make a mess, then go home and get clean  
You're my best friend and we're dancing in a world alone  
World alone  
We're all alone

I know we're no - ot everlasting  
We're a train wreck waiting to happen  
One day the blood won't flow so gladly  
One day we'll all get still (People are talking, people are talking)  
Get still (Ooooooooooooooooooh ooooooooooh)

Raise a glass 'cause I'm not done saying it  
They all wanna get rough, get away with it -  
Let 'em talk 'cause we're dancing in this world alone  
World alone  
We're alone

All the double-edged people and schemes  
They make a mess, then go home and get clean  
You're my best friend and we're dancing in a world alone  
World alone  
We're all alone

(People are talking, people are talking)  
(People are talking, people are talking)  
(People are talking, people are talking)  
(People are talking, people are talking)  
Let 'em talk
