                                                              All those rumors, they have big teeth
  Em
I do my makeup in somebody else's car
                                                              Oh, they bite you
                                                              Thought you said that you would always be in love
We order different drinks at the same bars
I know about what you did and I wanna scream the truth
                                                              But you're not in love no more
She thinks you love the beach, you're such a damn liar
                                                              Did it frighten you how we kissed when we danced on the light
                                                              up floor?
Those great whites, they have big teeth
                                                              On the light up floor
Oh, they bite you, thought you said that you would always be
                                                              But I hear sounds in my mind
in love
But you're not in love no more
                                                              Brand new sounds in my mind
                                                              But honey I'll be seein' you, ever, I go
Did it frighten you how we kissed when we danced on the light
                                                              But honey I'll be seein' you down every road
up floor?
On the light up floor
                                                              I'm waiting for it, that green light, I want it

I'm waiting for it, that green light, I want it

Oh, I wish I could get my things and just let go

waiting for it, that green light, I want it)
                                                                        I'm waiting for it, that green light, I want it

Sometimes I wake up in a different bedroom
                                                                  C

I whisper things, the city sings 'em back to you
