

Lorde - Homemade Dynamite

Tom: C

A couple rebel top gun pilots flying with nowhere to be, oh
 Don't know you super well but I think that you
 Might be the same as me, behave abnormally

Let's let things come out of the woodwork
 I'll be on my best side, tell you all my best lies
 Yeah, awesome right?

So let's let things come out of the woodwork
 I'll be on my best side, tell you all my best lies
 Seeing me rolling showing someone else love, dancing with my shoes off

Know I think you're awesome right?

Our rules, our dreams, we're blind

Our friends, our drinks, we get inspired

Might get your friend to drive but he can hardly see, ooh-ooh
 We'll end up painted on the road, red and chrome

All the broken glass sparkling, I guess we're partying
 So let's let things come out of the woodwork
 I'll be on my best side, tell you all my best lies
 Seeing me rolling showing someone else love, hands under your t-shirt

Know I think you're awesome right?

Our rules, our dreams, we're blind

Our friends, our drinks, we get inspired

N.C.
 Now you know it's really gonna blow (pchow)

Our rules, our dreams, we're blind

Our friends, our drinks, we get inspired

Our friends, our drinks, we get inspired

Our friends, our drinks, we get inspired
