Oh, I've been pacing up and down this corridor

Waiting for you to swing open the door

Is there something that I'm missing

Or is it too much that I'm showing?

I know some say "Fight him away", but me I say "Come in"

So I smile a little too much

And the glass, it comes quick to the mouth

And I go on and on sometimes just like the rest of us

So I smile a little too much

And the glass, it comes quick to the mouth

And I go on and on sometimes just like the rest of us

It must be something deep within that I need to prove to you

Maybe I'm not what you expected to find

Yes, I'm all out on display and what I've spent a life to gather

In a night I'll give away, yes in a night I'll give away

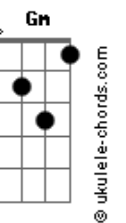

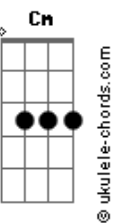

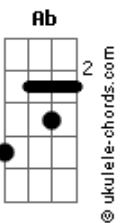

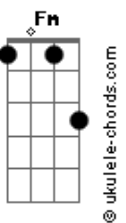

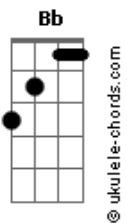

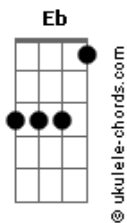

So I smile a little too much

And the glass, it comes quick to the mouth

And I go on and on sometimes just like the rest of us

Yes, I smile a little too much

Acordes

And the glass, it comes quick to the mouth

And I go on and on sometimes just like the rest of us

You can see me come a mile away

You can see me come a mile away

Oh, you can see me come a mile away

'Cause I've been pacing up and down this corridor

Waiting for you to swing open the door

Is there something that I'm missing or is it too much that I'm showing?

I know some say "Fight him away", but me I say "Come in"

So I smile a little too much

And the glass, it comes quick to the mouth

And I go on and on sometimes just like the rest of us

So, I smile a little too much

And the glass, it comes quick to the mouth

And I go on and on sometimes just like the rest of us

So I smile a little too much

And the glass, it comes quick to the mouth

And I go on and on sometimes just like the rest of us

Yes, I smile a little too much

And the glass, it comes quick to the mouth

And I go on and on sometimes just like the rest of us
